LINES

WHIPLASH 8

Berkley® Whiplash® 8 is a perfectly braided 8 carrier 100% PE superline. It does not matter if you go for the biggest Fresh or Saltwater specimen, you'll always have the fighting power of Whiplash to trust on. The new runlength are more suitable to fill reels while the new hi vis colour is more visible for the angler.

Whiplash 8 Green

NEW

- 8 carrier
- Perfectly round
- Exceptionally smooth and quiet
- Super Strong
- Extreme Durability

- Long and fast casting
- 100% PE Dyneema
- Tough and abrasion resistant
- For Fresh and Saltwater use

FIRELINE ULTRA 8

The Finest FireLine® Ever! The scientists at Berkley® have applied the famous FireLine® process to thermally fuse a remarkably strong 8-carrier Dyneema® PE fiber braid. The fused 8-carriers create a line that is tougher, rounder and smoother, delivering longer casts than ever before.

FireLine Ultra 8 Smoke

NEW

- Compared to classic FireLine®, Fused 8-Carriers create:
- Toughest - 50% Greater Abrasion Resistance
- Best Casting - Casts 10% farther
- Best Handling - Rounder, more consistent line structure
- Strongest - Made with the highest-tenacity Dyneema® PE Fiber

FIRELINE Series

FireLine Original is "The Next Generation of the Smooth Handling Superline™" FireLine = Superline! The term "Superline" was first used when FireLine was introduced in 1996 and it has remained the world's true Superline ever since! Not a conventional braid and not a mono - Thermally Fused FireLine changed fishing forever. Now we have the Next Generation of FireLine. Smoother and tougher than ever with the same powerful strength, smooth handling and fast-casting you know and love! All FireLine is packed in the modern New style Berkley packaging which gives it a super shelf appearance.

The Superline with the highest abrasion resistance!

Now all big diameters flame green in 0.25mm-0.32mm-0.39mm and 0.50mm are available in 600m econo spools.

- Smoother right out the Packaging
- Faster Casting
- Improved color fastness
- Tougher than ever
- Modern and strongly Improved Touch and see packaging

Fireline Fused Tracer

Berkley® Fireline® Fused Original Tracer is the new double colored version that brings you even more benefits like, see the line move when fishing slack line so you indicate a bite perfectly. See much better where you cast as the colors will create a flash it improves visibility. Use the pattern to count distance if you want to adjust just slightly when fishing higher or lower to the bottom.

- Smoother right out the Packaging
- Faster Casting
- Improved color fastness
- This is the Superline with the highest Abrasion resistance
- Lo Vis
- Modern and strongly Improved Touch and see packaging
- Dual color pattern

FireLine Crystal

Berkley® Fireline® Fused Crystal

The first Translucent Superline, FireLine Crystal was introduced in 2006 and took the world by storm. Thermally fused FireLine Crystal combines the ultimate in low-underwater visibility with all of the FireLine benefits.

Now the Next Generation of FireLine Crystal is smoother and tougher than ever with the same powerful strength, smooth handling and fast-casting you know and love!

- Smoother right out the Packaging
- Faster Casting
- Improved color fastness
- This is the Superline with the highest Abrasion resistance
- Lo Vis
- Modern and strongly Improved Touch and see packaging
- Translucent

FireLine Red

Berkley® FireLine® = Superline! The term "Superline" was introduced in 1996 - and it has remained the world's true Superline ever since! Not a conventional braid and not a mono - Thermally Fused FireLine changed fishing forever.

- Smoother right out the Packaging
- Faster Casting
- Improved color fastness
- This is the Superline with the highest Abrasion resistance
- Lo Vis
- Modern and strongly Improved Touch and see packaging

DIRECT CONNECT Series

Direct Connect series of lines covers all carp fishing requirements from PE braid, 100% fluorocarbon to 3 unique styles of monofilament in 3 specific colours.

This series of line has exceeded all attributes that modern carp lines need and proves to use the most innovative technologies to date.

Its silky smooth texture and low memory makes the Direct Connect series of lines the "go to" carp lines when wanting to make further, more effortless casts.

This series has been developed to make fishing easier and more pleasurable for all anglers.

Direct Connect is the most manageable carp lines on the market today!

Direct Connect CM90

Direct Connect CM90 is a professional grade Alloy Monofilament and is designed as the most manageable carp fishing mono on the market today. With its increased sink rate, the line gets your bait to your fishing spot quicker and easier which means for an increased catch rate. With extreme abrasion resistance, and low stretch, the silky smooth CM90 has no line twist or memory, which makes for perfect castability and high strength. The green colour is perfect for fishing weedy areas as it blends in to the surroundings perfectly.

- High abrasion resistance
- Higher sink rate
- Super-strong, great casting properties
- Great manageability

Direct Connect CM70

Direct Connect CM 70 is a high performance co-polymer monofilament, designed as the most reliable carp fishing mono on the market today. Its extra high shock resistance and knot strength means the angler can fish for BIG carp with confidence. The brown colour is perfect for fishing muddy areas as it blends in to the surroundings perfectly.

- High shock resistance
- Great manageability
- Strong

Direct Connect CM50

Direct Connect CM 50 is a high performance co-polymer monofilament, designed as the most reliable carp fishing mono on the market today. Its extra high shock resistance and knot strength means the angler can fish for BIG fish with confidence. The high-vis opaque yellow colour is perfect for fishing applications where the angler needs to know where his lines are and can fish with confidence, without cutting off.

- Extreme visibility
- Strong and reliable
- Great knot strength

- High castability

Direct Connect CF 600

Direct Connect 100% fluorocarbon is virtually invisible in water and can be used in clear waters when anglers need a stealthy attack. With its increased sink rate, the line gets your bait to your fishing spot quicker and easier which means for an increased catch rate. CF600 is the most supple and soft fluorocarbon on the market today making it the most manageable fluoro to use. With extreme abrasion resistance, and low stretch, the silky smooth CF600 has no line twist or memory, which makes for perfect castability and high strength

- 100% PVDF fluorocarbon
- high sink rate
- supreme abrasion resistance

- ultra-flexible and manageable
- near invisibility

Direct Connect CB2000

Direct Connect 8 carrier braid (0.16mm +) is made from 100% Dyneema fibers which is the world's strongest fiber. It's super high strength, exceptional abrasion resistance and knot strength gives the angler full confidence when targeting BIG carp. CB2000 is designed to cast further and its thin diameter gives anglers the opportunity to fish further distances. The moss green colour is perfect for fishing all areas and blends in the surroundings perfectly.

- Supreme strength to diameter ratio
- No stretch
- Easy casting
- No water absorption
- 100% PE Dyneema fibres

NANOFIL Series

Not a mono, fluoro or braid - NanoFil has the best casting properties of any fishing line. Spinning reel anglers will experience exceptional casting distance and accuracy allowing them to cover more water and catch more fish. Made with 100% Dyneema®, the World's Strongest Fiber, it has an incredibly high strength/diameter ratio, creating our thinnest line per kg test. Winner of 4 international awards, including 2011 Best Fishing Line Product at the Eftex and ICAST Show.

Nanofil LV Green

- Ultimate Sensitivity
- Extreme Castability
- Extremely Smooth
- High strength per diameter
- Perfect for all open water techniques

Trilene Fluorocarbon Leader 25-50m

Trilene® Professional Grade Series

Working together with the input and field testing skills of the Berkley Pro Staff, we have developed a series of Professional Grade fishing lines in two major line segments ? Fluorocarbon and Nylon Monofilament. All are worthy of the Professional Grade classification and of the Trilene® name! The XT version in 100% fluoro Carbon mainline.

Trilene Sensation

Professional grade Trilene Sensation has been trusted by our Berkley pro staff for more than a decade. With extreme strength-per-diameter, it is still flexible and manageable. This strength allows us to make it in smaller diameters for better lure action and castability. The breakthrough multi-polymer nylon formula has less stretch and holds more of its strength when wet compared to other nylon monos for sensitivity and control.

A PROFESSIONAL GRADE MONO - EXTREME STRENGTH, SENSITIVITY AND CONTROL

- High linear and knot strength.
- Low memory.
- High sensitivity.

- Smooth
- Easy to tie knots

BAITS

Juke 78 & 100

Berkley® paired its world-class bait design engineers with a team of pro-anglers which includes hard bait legend and expert, David Fritts, to simply create dream baits. These hard baits capture the essence and action of artfully handcrafted wooden baits with exactness and durability delivered in a synthetic bait. The balanced designs throw straight and far and are consistently ready to run right out of the package without tuning.

- Crank it, Twitch it even Troll it for ultra-unique actions
- Highly versatile bait entices strikes
- Flat baitfish profile for maximum Flash & Roll
- Long-distance Castability
- Designed to burn over shallow water
- Shallow water jerk bait
- Versatile -- twitch, jerk, pause, rip, burn and standard retrieves
- Suspending jerkbait with long-distance castability
- Coffin shaped bill allows maximum darting action and side flash with minimal rod movement

Dredger 6 cm

Berkley® paired its world-class bait design engineers with a team of pro-anglers which includes hard bait legend and expert, David Fritts, to simply create dream baits. These hard baits capture the essence and action of artfully handcrafted wooden baits with exactness and durability delivered in a synthetic bait. The balanced designs throw straight and far and are consistently ready to run right out of the package without tuning.

- Body shape and weighted bill drive bait deep to stay in the strike zone longer
- Tight subtle action proven best for deep water fish
- Great casting and easy to crank for less fatigue all day fishing
- Slow rise at pause

Cutter 110

- Suspending jerkbait with long-distance castability
- Versatile -- twitch, jerk, pause, rip, burn and standard retrieves
- Coffin shaped bill allows maximum darting action and side flash with minimal rod movement
- Lunges downward when jerked for added depth

Bad Shad

Berkley® paired its world-class bait design engineers with a team of pro-anglers which includes hard bait legend and expert, David Fritts, to simply create dream baits. These hard baits capture the essence and action of artfully handcrafted wooden baits with exactness and durability delivered in a synthetic bait. The balanced designs throw straight and far and are consistently ready to run right out of the package without tuning.

Powerblade

Rigorously field tested by the Berkley Pro Team, the Powerblade is the ultimate finesse blade proven to trigger bites in all conditions. The Powerblade is versatile enough to catch all predators such as zander, perch, pike, trout, chub and much more. Precision engineered to trigger more strikes, it emits a high frequency, fish attracting vibration with minimal rod action. On the drop, the Powerblade glides naturally through the water column enticing fish to follow it down and strike

- Laser cut stainless steel blade
- High frequency vibes
- Sharp hooks
- Super UV Accents

Gulp! Salmon Eggs

Gulp! Salmon Eggs were originally formulated for catching trout and salmon in fast-flowing rivers. Over the last couple of years carp anglers have added these floating baits to their armoury to give them a number of different presentation options. They can be used in conjunction with normal boilies or fished on their own. Our Berkley Carp Consultants recommend that you add your favourite flavours for maximum effect. By the way, the perfect bait for trout fishing, even in combination with Powerbait Micro Baits (Honey Worms, Sparkle Nymph...)

Gulp! Alive Spray

Gulp!® Alive spray fish attractant will make any bait taste and smell alive. It's like a blood trail in the water that fish can't resist. The trigger spray bottle shoots a stream or a spray, and enhances a baits effectiveness whether it's a soft bait, a hard bait, or a live bait. At Berkley®, our passion is that you CATCH MORE FISH!

Powerbait Pulse Shad

The Pulse shad is the first shape developed for the EUropean market in 2006. The success story is still being written with that complete new version. The material is now softer for even more action at low speed. The eye pattern and the colour line-up has been renovated as well. Comes in a new packaging for improved value for money.

Powerbait Ripple Shad

Here we are! The Ripple shad is one of the most successful shads in the World, sold on every continent for all kind of fishes. For it's 8th birthday we offered him more than a facelift....This new version features a higher body softness as well as a new improved Powerbait formula. Last but not least the colour pattern has totally changed as this legendary shad comes now with laminated colours! Comes in a new packaging for improved value for money.

- Improved formula
- Soft material
- Easy to swim

- Incredibly versatile

Prerigged Giant Ripple

Finally a prerigged version for those who want to make sure they use a correctly rigged Giant Ripple. But this one is more than another prerigged, it offers an exclusive system that allow a free 360° turning belly hook. It improves the catch rate by eliminating the leverage traditionally used by the pike by the rigid connection between the lure body and a fixed stinger.

PowerBait Papa Giant

Go big or go home! The Papa Giant is not just a size extension of its little brother the Giant Ripple 20cm. Some tweaks have been necessary to get the best out of the Ripple family advantages on such a big lure. The Papa Giant has a flatter body and reworked tail, but also a belly slot that makes the rigging more easy, the body easy to collapse, and reduces the overall weight without sacrificing the silhouette.

- Powerbait loaded
- Belly slot

- High silhouette

Flex Vamper

The Vamper has been designed with vertical fishing in mind. Made out of a very soft material he will deliver subttle vibrations at anytime. The belly slot offers several advantages, it's place that you can easily load with attractant when needed, but it also provides an even better softness to the whole body and will collapse when a fish bite. The Vamper has also a tail bump under the tail which add more weight at the very end of the body to enhance vertical movements. It can of course be used on a wide gap hook to target pike, bass, or even seabass.

- Pro designed
- High softness
- Belly slot

Flex Stoop Shad

The Stoop shad is the latest one in the Flex family. But it's not just another shape, because each of them have a specific purpose. The Stoop has a thin tail to produce smooth vibes and a round section to get a furtive swimming action. This is the ultimate shape when it comes to difficult conditions. Available in 3 sizes and 8 exciting colours the new Stoop will quickly become one of your favorites for perch or zander fishing!

Flex Slim Shad

The Slim shad has a special flat body to present a large silhouette without pulling too much on the rod, and keep a good penetration in the water. As the 2 other shapes of Flex lures, its body has many ribs to enhance the vibes but also to better hold any attractant you want to apply. A must have in the small size for zander fishing, vertical style, and a clear target for pike and catfish, but also seabass and cod. We add a 4" size that will be perfect for zander fishing, as well as light pike fishing.

AIR Series

Part of a new range of rods from the famous Berkley Brand. The AIR is a very light, fast action, technical rod. Boasting an impressive blank created from 30 ton high density carbon. This gives the rod stability, great feel with a great fast action but maintains its overall strength. The Air has more, low diameter guides suitable for fishing braided lines. Finished with a high density EVA grip for long term comfort when casting, these really are superb value range of spin rods.

30 Ton high density carbon
High density EVA grip
Exposed design ALIEN reel seat
Anti-tangle HERO HI GRADE SIC guides

E-MOTION Series

Fuel your emotions with the new E-MOTION range of rods from Berkley. The selection of spin and casting rods includes some impressive finishes found on some rods within a much higher price range. Using 24 ton, high density carbon blanks to maintain strength and durability, the E-Motion rods also carry K series SIC anti-twist guides so you won't get into trouble with line tangles. Berkley has worked on a new ergonomically designed reel seat making sure your reel stays put whilst reducing angler fatigue. Dependant on the rod choice, grips come in either a high density EVA foam or super smooth cork. The E-MOTION rod really is a premium fishing fish fighting tool and amazing for value for money.

- 24 Ton high density carbon
- K Series SIC anti twist guides
- Ergonomic design reel seat
- High density EVA and cork grip

FIREFLEX Series

The Berkley FireFlex series combine Traditional looks with high end features. Berkley FireFlex rods are the right choice for anglers with a passion for quality. The strong Ultra Smooth Guides will provide smooth casting with minimum friction, Using both Standard and Superlines. All rods in the series are built with High Modulus Carbon and will deliver the Power and Sensitivity needed to register any bite and land any fish targeted. The EVA split handle design has great looks and perfect grip.

- Fast action
- Dual Cork split handle
- Classic design
- K design LT guides
- High value for money

PHAZER Series

Graphite Technology delivering remarkable value. Lightweight, responsive carbon composite construction blank delivering exceptional fish-fighting performance characteristics. The hard chromium SS304 guide system is 20 times tougher and up to 55% lighter than conventional guides.

- Carbon composite blank construction
- SS304 guides
- Cork handle
- Cloth bag

Phazer Pro II Spinning

The phazer rods have been modernized, a refreshed color pattern is used to do this. the full set has ultra light weight strong guides and cork handles combined with a perfect locking reelseat makes this the rod you always wanted! make your best choice from the 2 or 4 piece rods.

Trout Bait Hooks

Berkley trout bait hooks are ideal for using with the wide variety of Berkley trout bait and are perfect for holding the bait onto the hook due to the small coiled spring on the shank of the hook giving extra grip for moulding the bait too. In addition we have illustrated a rig that is often used for moving the trout bait through the water and is deadly for luring the trout.
