A big welcome to Dynamite's 2019 export catalogue. As always a very grateful thank you to all our customers that continue to support us. 2018 has been a fantastic year for us, both in Europe and the UK and its far from over yet as our catalogue goes to print in August.

2018 might be remembered as the year we finally had a proper summer in the UK and England did pretty well in the world cup. Also for us it was a year of 'record sales' for our new product's launched. The likes of the Hot Fish boilie, CompleX-T Pellets, Evolution Oils and the new Natural Pulse & Particles seemingly hitting the right spot for the carpers. On the match and feeder side the new Swim Stim F1 range - the UK's biggest selling match products in 2018, and the amazing Durable Soft Hookers have just been literally flying off the shelves - anglers just can't get enough of them!

2019 sees an equally impressive line-up of innovative new baits. On the carp side, two new Evolution Oils, a 'Hit'N'Run' range of new pop ups developed with Rob Hughes' many years of experience and extensive underwater knowledge. Food bait wafers are added to our 'Hero' range and we have a new 1 litre Worm Liquid which is really something else.

On the match/feeder side there will be 'washed out wafer's' designed with Nick Speed's many years of winning matches. Extensions to the top selling Durable Soft Pellet range with bigger sizes (8mm) and a new flavour, and some exciting new groundbaits - some designed specifically with European feeder fishing in mind. We also have some exciting pheromone based products to offer to those anglers who want to add an extra edge to their fishing.

We have the WCC at Lac De Madine to look forward to in September then it's all guns blazing ready for 2019. All of the new products are ready to order for delivery from Jan 1st.

Enjoy browsing the catalogue, remember if yourself, your team or your friends get some good catch shots using our bait be sure to send them to catchshots@dynamitebaits.com - we'd love to share them and give you or your shop a few moments of fame!

Also if your shop requires any photos, logos, articles or videos please get in touch on web.eu@dynamitebaits.com

Looking forward to another great fishing year in 2019!

HIT'N'RUN POP-UPS

Rob Hughes

THE COLOUR CHART

- 1 Always think about the colour underwater,
- 2 Fish can see colours, so what colour you use matters
- 3 Colours change in different conditions and backgrounds
- 4 Fluro colours tend to 'grab' ultraviolet light making them more visible in darker conditions

- WHITE** Stands out well in clear shallow water, also works in deeper water
- YELLOW** Brilliant in deep water, also a good all-rounder
- RED** This dark colour is perfect on light silty bottoms, also if the water is green
- PINK** The most visible colour at all depths

HIT N' RUN POP UPS

- An exciting new range of pop-ups with unique flavours and essential oils
- Designed in conjunction with Rob Hughes - utilising years of experience and his underwater studies
- Includes essential oil flavour booster

RRP €4.95
